

## **Today's edition newspapers from around the world**

PressDisplay is a web-based portal which provides on-line access to over 900 newspapers and magazines from 82 countries in 39 different languages. PressDisplay enables easy and up-to-date access to newspapers from around the world on the date of publication. PressDisplay is developed by NewspaperDirect and available to order via QUANTAX.

- Number of Publications: 900+
- Number of Countries: 82
- Languages: 39

Publications are exact digital replicas that are complete with editorial content, advertisements and classifieds. Publications on PressDisplay are displayed in their original format and can serve as a formal reference.

PressDisplay is the most convenient, complete and cost-effective way to read all your favorite newspapers on one site. With a subscription, users gain access to newspapers from home and around the world on the day they are published. PressDisplay enhances your reading experience with a simple user interface and easy-to-use navigation tools.

Retaining convenient search and bookmarking tools, these advanced digital features are built on the technology made available to clients.

PressDisplay provides a global perspective on the world's events, by delivering a wide range of newspapers to readers, while at home and away.

- **Corporate PressDisplay** is specifically designed for corporate clients. It can be accessed through a simultaneous user model or by personalized access.

**Advanced Digital Features** – It has advanced digital tools to make reading easy and enjoyable. Features include:

- Article Ranking – Article Ranking on front interface, shows popular articles
- Keyword Searching - by Date, Language, Title, Country, Author
- Newspaper View
- Thumbnail View
- Archive length: Up to 60 days back issues
- Article / Page Blogging
- Article / Page Sharing (e-mail)
- Article / Single Page Printing

**SmartNavigation** - PressDisplay's proprietary software processes newspaper files as they arrive from the publishers and intelligently recognizes images and articles. These files are then presented to readers in an interactive format, allowing readers even greater functionality from their selected publication. Coupled with the existing digital tools, SmartNavigation provides readers with advanced digital tools such as:

- Article Text-View
- Table of Contents
- Article Linking
- URL / Email linking
- Language Translation
- Sound Integration
- RSS Feeds
